

Table Top Screen

Table Top Screen ideal for portable short distance view. Premium quality white backgroup project with crystal clear.

Table Top Mobile Screen Setup

1. Open all four leg supports by folding legs down 90° and locking into place. Place projection screen housing on stable, level surface with support legs facing down.
2. Hold left side (side with carry handle) of housing on left hand and unlock screen by depressing two buttons (front and back) on right side housing with thumb and index finger.
3. Open screen slowly by pulling two screen halves in opposite direction until fully open.
4. Position on flat and sturdy table-top for data projection viewing.
5. Repeat steps in reverse order to close. Glide screen gently to closed position. Do not let screen retract freely to prevent from damage.
6. Close leg support by squeeze the leg together at base and slowly rotate towards housing. Repeat for each leg.
